

## **Invitation to Participate in a Study of Music Education in Canada**

**To school administrators and music teachers**

Music is important for most students. It is also a subject for study in school. We want to hear what school administrators and teachers think about music and music education. Our focus is on grades 7 to 12. Answering this survey can help us learn about what can be done to improve access to music education in Grades 7 to 12.

If you are a Music teacher and/or a school administrator, you are invited to participate in a 30-minute anonymous online survey. You can click <https://tinyurl.com/uyvzn5s8> in order to receive more information about the survey and what you would be asked to do.
